DETAILED ACTION

Response to Arguments

Applicant's arguments filed February 17, 2004, with respect to claims 17-24 have been fully considered and are persuasive. The rejection of claims 17-24 has been withdrawn.

Allowable Subject Matter

Claims 17-24 are allowed.

The following is an examiner's statement of reasons for allowance:

The amendment and remarks submitted in response to the last Office action have overcome the rejection under Da Lin et al. The prior art further fails to teach or suggest a magnetically suspended magnetic field shield located coaxial to a charged particle beam in a variable axis immersion lens as recited in claim 17. Claims 18-24 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A Vanore whose telephone number is (571) 272-2483. The examiner can normally be reached on M-F 7:30-5:00.
